

ACTIA Sweden

**We make the
World Green, Safe
and Connected.**

ACTIA Sweden envisions a Greener Future

By 2027, reduce our direct (Scope 1) and energy-related (Scope 2) emissions with 50% in order to cut our carbon footprint.

ACTIA Sweden envisions a Greener Future

Integrate Design for Environment (DfE) and circular principles into all aspects of product development and manufacturing to achieve a 20% reduction in Scope 3 environmental impact from designed and manufactured products by 2027.

***ACTIA Sweden is committed to
creating a Safe Society***

By innovating and integrating connected safety technologies and exploring new use cases, we drive 20% annual sales growth in products including connected safety technologies, helping protect end users

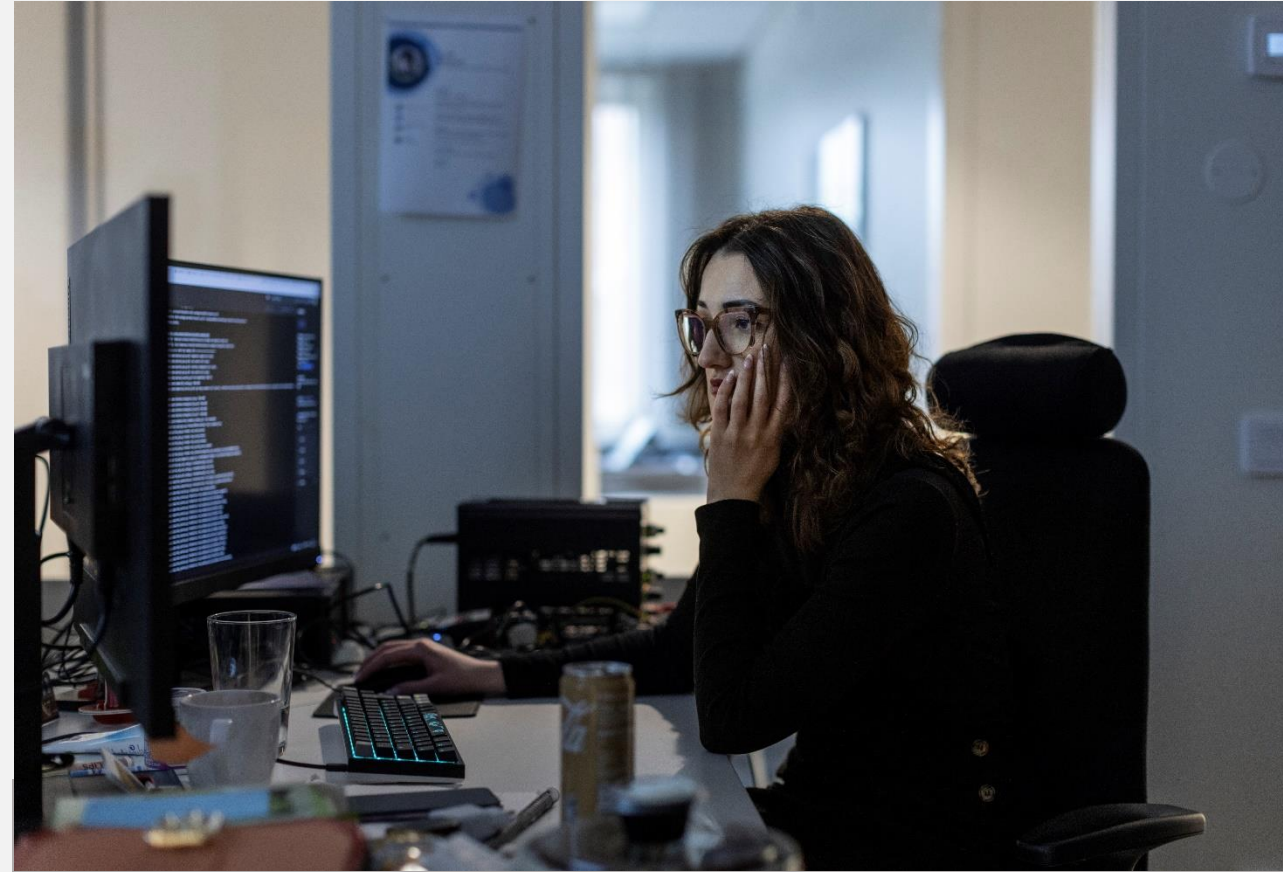

***ACTIA Sweden is committed to
creating a Safe Workplace***

By 2027, eliminate workplace injuries and promote a culture of safety and well-being. Implement a robust health and safety management systems to further ensure that employees thrive.

***ACTIA Sweden is committed to
creating a safe and more inclusive
workplace***

By 2027, increase the number of female employees and female leaders, and when possible, continue to recruit employees with different nationalities, in order to create a more diverse and inclusive workplace.

ACTIA Sweden strives for a more connected future

Integrate connectivity technologies to create stable, reliable solutions. By ensuring high-quality products and exploring new use cases, we drive 20% annual sales growth.
